

June 4, 2007

Dear Student:

The Dean of the Medical School asked us to administer this brief survey to all students of the International Program. The aim is to know which are the main academic/administrative matters that should be reinforced or improved. This is an anonymous survey and we will appreciate your honest opinions.

1.- What are the things you liked most in this semester?

2.- What are the things you liked least in this semester?

3.- What are your recommendations
